Hayes Garden Seeds

Asparagus—Seed

It will pay you to plant an asparagus bed. For making a permanent bed enrich the space to be used, sow in the fall or early spring in shallow drills 15 to 18 inches apart, thin out seedlings to three or four inches apart in rows, saving only the strongest; transplant when two years old into permanent beds, the soil of which should have been thoroughly mixed with well rotted manure. For **Asparagus Roots**, see page 23.

Beets—*for Table*

Hayes' New Improved Detroit Dark Red Beet—This is imported seed from Holland and produces Beets free from white rings, as in most Beets. Does not fade color when canned. Sweet and tender. When beet tops are young and tender they may be cooked as spinach, and are as good. The stem may be par-boiled and pickled for immediate use.

Swiss Chard or Foliage Beet

This is a distinct vegetable from the common beet, much superior for greens, and is ready for use much earlier. When mature, the plant forms broad, flat and beautifully white and wax-like stems, which are very delicious when cooked as beets and asparagus tips, or pickled. We recommend this beet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c; postpaid.

Cabbage Seed of Highest Quality

Our seeds are both imported and Long Island (N. Y.) grown, and especially grown for the market gardener and general home use.

A new variety of Cabbage imported from Copenhagen, Denmark

WILBOT'S EXTRA EARLY EXPRESS

It is an improvement over Copenhagen Market, matures 10 days earlier. It is one of the finest early round-headed cabbages in cultivation. It is desirable on account of the remarkable characteristic of maturing the heads all at the same time, enabling the grower to gather his crop with less expense and permitting the cleaning of the land at the first cutting. The heads average about ten pounds each in weight, are hard and solid, with small core. The leaves are light green, rather small, saucer-shaped and tightly folded, making it possible to set them close together in the field. Price, per pkt. 10c; per oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50; postpaid.

Our New Sweet Corn

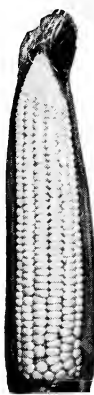

GOLDEN GIANT EVERGREEN—This splendid new corn has the sweetness and fine flavor of the Golden Bantam and is ready for the market at about the same time. It has the added merit of size, the ears ranging from 8-10 inches in length and grow up higher on the stalk. Market gardeners will find this a profitable variety to grow as it has earliness, quality, size and productiveness to recommend it. Price, $\frac{1}{2}$ lb. 20c; 1 lb. 30c; 2 lbs. 50c; postpaid.

Onion Plants

Bermuda and White Wax Onion Plants—Our plants are grown in the South in open ground, are hardy and will withstand ordinary freezing. Can be set from November on till late in the spring. They are put up 100 plants to the bunch and will carry any place in the U. S. by mail in fine condition. These plants will be about as cheap as sets and will make larger and sweeter onions in less time than seed or sets. **Price per bunch, postpaid, 25c; 2 bunches 45c; 1,000 plants \$1.50; per crate, 6,000 plants, delivered your station, \$6.50.**

Special prices on large orders.
